

## NexTFund Capital launches NTF-Energy

Paris, on the 9th of July 2009 :

NexTFund Capital has announced the creation of NTF-Energy, its Cleantech initiative for the Solar Energy market. NTF-Energy will be focused on the ownership and management of medium-size facilities on select Real Estate facilities. The company's focus is to maintain ownership for the first 5 years of operation before a liquidity is offered through secondary offers. Although the focus is France, NTF-Energy is in discussion with Operators as to offering assistance to build solar energy facilities in a co-management mode.

About NexTFund:

Created in 2003, NexTFund Capital invests in Technology (& CleanTech), its related Services and Traditional Sectors where technology makes a difference. Its sweet spot is "growth capital". Since inception, the company has completed one Nasdaq merger, a EURONEXT-Alternext IPO and three industrial sales. Its "investment-boutique" style allows it to zoom on opportunities in its core disciplines while maintaining a "positively opportunistic" open mind.
